# Modernize Existing SharePoint Sites

**Nicolae Caprarescu**
FULL-STACK ENGINEER

www.properjava.com

# Module Overview

**Create classic sites**

**Create some content**

**Convert the sites to the modern experience**

# Globomantics Requirements

**Globomantics has some existing SharePoint sites that were created using the classic site template**

**Globomantics does not want to lose any existing content from these sites**

**Globomantics wants to update these sites to the modern experience**

# SharePoint Modern Sites

Designed to be easier to use

Works better on mobile devices than the classic experience
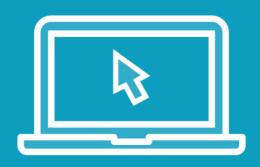

Effects the site layout
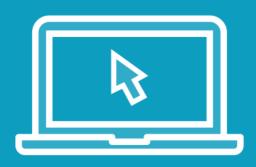

Lists and libraries gain functionality
